Pages

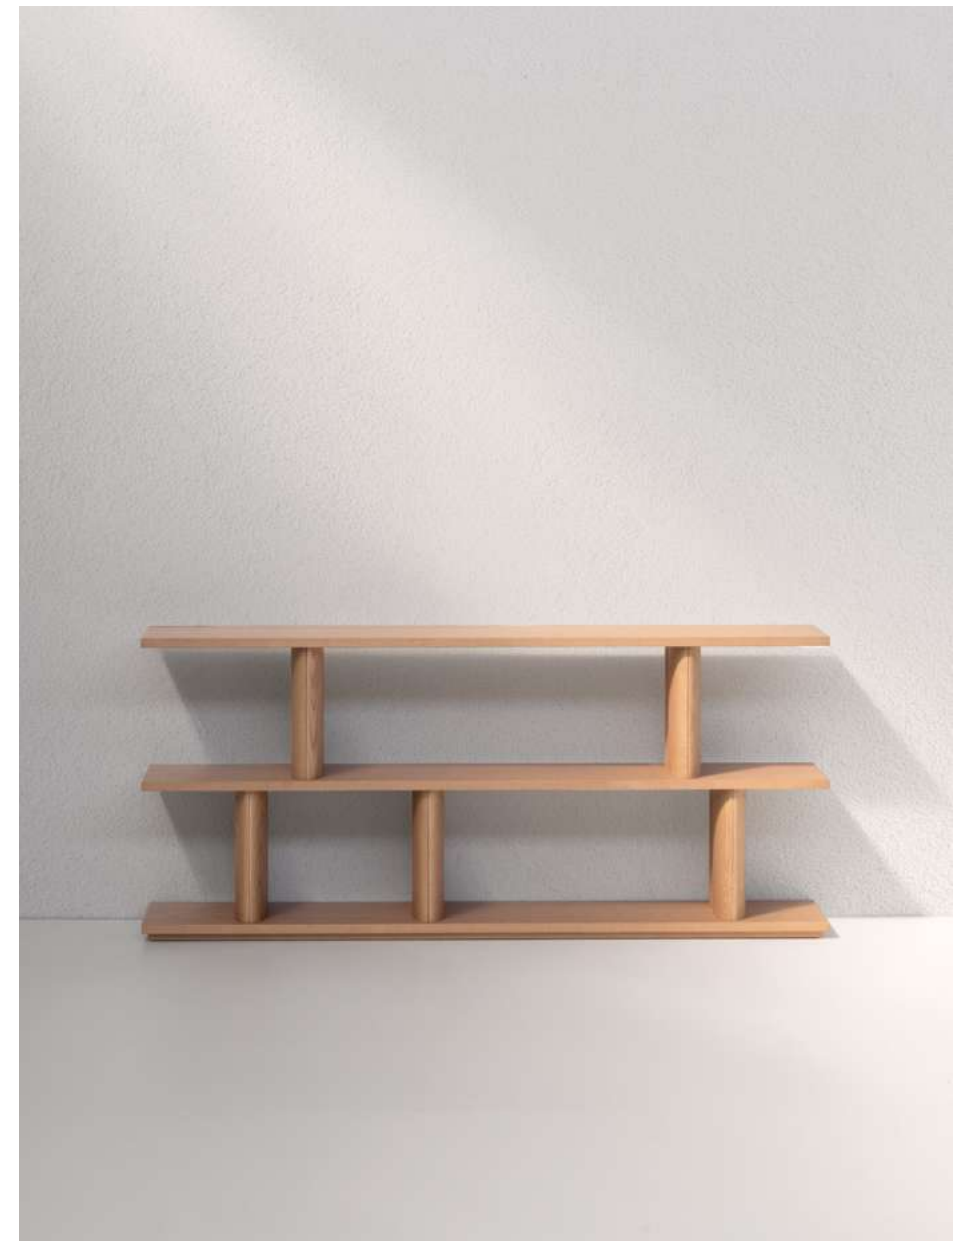

Ispirata alle pagine aperte di un libro, la libreria Pages si caratterizza per i montanti scolpiti in legno massello, dalle linee sinuose e asimmetriche, che evocano la dolce curva della carta sfogliata. La sua struttura rigorosa e dinamica riflette l'expertise di Potocco nel combinare forme morbide e geometriche in un equilibrio armonioso. La libreria è disponibile in due varianti: la versione totalmente in frassino in 3 altezze (disponibile a 6, 4 e 2 ripiani) e la versione in frassino con ripiani in vetro specchiato bronzo (disponibile a 2 e 4 ripiani).

Inspired by the open pages of a book, the Pages bookshelf is characterized by solid wood uprights with sinuous and asymmetrical lines that evoke the gentle curve of turned paper. Its rigorous and dynamic structure reflects Potocco's expertise in combining soft and geometric shapes in a harmonious balance. The bookshelf is available in two variants: the fully ash wood version in three heights (available with 6, 4 and 2 shelves) and the ash wood version with bronzed mirrored glass shelves (available with 2 and 4 shelves).

Syn

La collezione Syn indaga la relazione tra volumi multiformi che si incontrano e si uniscono in un equilibrio armonico. La novità di quest'anno è l'introduzione dei Syn coffee tables disponibili in tre diverse versioni: piano rettangolare e piano rotondo in due altezze che riprendono e rielaborano il concetto di intersezione tra forme e materiali, declinandolo in proporzioni più contenute, ideali per spazi living e lounge.

The Syn collection explore the relationship between multiform volumes that meet and merge in harmonious balance. This year's novelty is the introduction of Syn coffee tables available in three different versions: rectangular top and round top in two heights, which revisit and rework the concept of intersection between shapes and materials, adapting it to more contained proportions, ideal for living and lounge spaces.

E Claire

Flowing through shapes

La collezione E Claire, in collaborazione con lo studio fiorentino Ferriani.Sbolgi, è composta da consolle e specchi e ispirata alla silhouette del celebre dolce francese éclair che dà nome alla collezione. Gli specchi sono caratterizzati da un segno essenziale e una forte identità materica. Proposti in tre dimensioni, si distinguono per l'inserito laterale in legno di frassino che si innesta nella cornice in marmo, creando un raffinato equilibrio tra leggerezza e solidità. Le consolle sono disponibili nella versione a muro e in una freestanding, accomunate dall'incontro tra materiali naturali e forme essenziali. Il legno di frassino e il marmo si uniscono in un elemento a incastro che diventa il fulcro estetico e funzionale del progetto.

The E Claire collection, in collaboration with the Florentine studio Ferriani.Sbolgi, consists of consoles and mirrors and is inspired by the silhouette of the famous French pastry éclair that gives the collection its name. The mirrors are characterized by an essential design and a strong material identity. Offered in three sizes, they stand out for the side insert in ash wood that fits into the marble frame, creating a refined balance between lightness and solidity. The consoles are available in both wall-mounted and a freestanding versions, united by the combination of natural materials and essential shape. Ash wood and marble come together in an interlocking element that becomes the aesthetic and functional focal point of the project.
